FINI TURE.

Starox, Brased, Uberall sono le finiture superficiali del futuro che segnano un punto di svolta nel processo di colorazione dell'alluminio.

Starox è la finitura dell'alluminio anodizzato colorato nelle due varianti di lucido e opaco, Brased è l'anodizzato graffiato, colorato. Le lavorazioni Uberall sanciscono poi la leadership di Ponzio in know-how e tecnologia. I nuovi impianti di verniciatura verticale e orizzontale con cambio colore rapido imprimono una gamma di colori brillanti e lucidi all'alluminio per un effetto finale mai visto prima.

Le finiture Ponzio sono la risposta più efficace al desiderio di raffinata eleganza in casa.

Starox, Brased, Uberall are the surface finishes of the future that mark a turning point in the aluminum coloring process. Starox is the colored anodized aluminum finish available in gloss and matte variants, Brased is the scratched, colored anodized. Uberall processing then enshrines Ponzio's leadership in know-how and technology. New vertical and horizontal painting systems with rapid color change impart a range of bright, glossy colors to the aluminum for a final effect never seen before. Ponzio finishes are the most effective answer to desires for refined elegance in your home.

BRASED®
